piece of sales and promotional materials, and each time anyone asks you about your ebook.

Apart from selling your books assiduously online, there are several other methods that may help you promote extra books.

One is to give something away without cost with your guide, reminiscent of a valuable bonus item. Or bundle a number of ebooks under one worth, which lowers the worth for each e-book if they were sold separately.

An efficient technique for figuring out a value is to ship out a survey to your current customers. If these prospects have already purchased an book from you, ask for their opinion in terms of price. Do that by making a gross sales page for the new e book, but don't embody a price on that page. As a substitute, add a lot of hyperlinks to survey questions that ask pointed questions to aid you in assigning a value to your ebook.

One other technique is to test out prices by creating a variety of duplicate sales pages with different costs on each page. Be certain that your sales copy is exactly the similar on each web page, and includes your promoting-deal with sentence. Then work out for each page the conversion ratio between guests to your site and gross sales of your book. It will let you know what your optimum value is.

Finally, for those who've written a ebook that solves a drawback or presents a brand new technique, your book will bring in both traffic and profits. So be sure to write that selling-deal with sentence that sums up what downside your book solves and what the benefits of your 2092 book can be to the customers who buy it. After which watch your market come to you!
