An effective technique for figuring out a worth is to ship out a survey to your present customers. If these prospects have already purchased an e book from you, ask for his or her opinion when it comes to price. Do that by making a sales web page for the new e-book, but do not include a price on that page. Instead, add plenty of links to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

Another technique is to check out prices by creating a number of duplicate gross sales pages with completely different costs on each page. Make sure your gross sales copy is strictly the same on every page, and contains your selling-handle sentence. Then figure out for each web page the conversion ratio between guests to your web site and gross sales of your book. It will tell you what your optimum value is.

Finally, if you've written a guide that solves a downside or presents a brand new technique, your e-book will usher in both traffic and profits.
